Is this program right for me?

Have you struggled with opioid use and wondered how you would ever break this cycle of addiction? Do you find yourself doing things to obtain opioids that result in negative consequences? How will you ever stop? How can you change this cycle and function each day without the use of opioids?

If these are some of the challenges that you are facing today, are you willing to make some changes and receive help?

Let SOAR help you.

SOAR

Supporting Opioid Addiction Recovery

Serving Individuals with Opioid Use Disorders who will benefit from Medication Assisted Treatment

What can I expect if I participate in the program?

SOAR operates a clinic in New Bedford, MA. The Program is staffed by a psychiatrist and other professional practitioners who are experts in treating opioid disorders and effectively determining your Medication Assisted Treatment needs.

In conjunction with MAT, psychosocial treatment will be provided to participants through a variety of approaches including social skills training, individual, group, and couples counseling, cognitive behavioral therapy, motivational interviewing, and family therapy.

Determining the level of need and best approach to psychosocial treatment will be individualized for each participant.

For those diagnosed with co-occurring mental health disorders, the treatment team will provide evidence-based Integrated Treatment for Co-Occurring Disorders (ITCD), as well as other pharmacology as needed.

You hear about how many people are out there dying everyday of overdoses. After years of struggling with opiates, I am very grateful to have the help and support of the SOAR team. *~ Jessica*

Who is eligible?

You must be 18 years of age or older and have an opioid use disorder.

How do I apply?

Self-referrals are accepted, as well as referrals from social service agencies, addiction centers, and other providers. To receive an initial screening assessment, call 508-984-4155. If criteria are met, an intake assessment is conducted on-site. Upon acceptance you will be scheduled for your first appointment.

SOAR is funded by the United States Substance Abuse and Mental Health Services Administration and by Blue Cross Blue Shield, TUFTS, Massachusetts Behavioral Health Partnership (MBHP), Neighborhood Health Plan, BMC HealthNet, Medicaid, Network Health and Private Contributions.

Funded by:

Substance Abuse and Mental Health Services Administration SAMHSA
