## Fall River Men's RRS Program

### A Long-Term Residential Rehabilitation Service Program

Serving Men with Substance Use Disorders in the Commonwealth of Massachusetts

## What can I expect if I participate in the program?

The Fall River Men's Residential Rehabilitation Service RRS Program provides 23 beds to men with substance use disorders. The Program is located in a three-story building which provides a comfortable, sober, home-like environment.

Residents participate in the program from three to twelve months as they work on developing recovery skills and support systems. Residents are also assisted with obtaining employment, entitlements, parenting skills, living skills and coping skills as well as finding appropriate housing prior to discharge.

These skills, services, and supports empower residents so they successfully transition into the community and experience long-term sobriety and an improved quality of life.

*The Men's Program is giving me the opportunity to work on my recovery in a safe environment. The support of the other men in the program has built up my confidence to open up more than I thought I was capable of.*

*~Kevin*
