Is this program right for me?

Have you achieved some strides in your recovery from substance use while completing a residential, acute, or other intensive treatment program, but still feel like you need longer-term support?

Would a supportive, but less structured environment help you achieve long-term recovery? Could you benefit from residing in a community of supportive peers who are also in recovery? Would you benefit from having access to staff and resources to help you address challenges on your journey to recovery and independence? If so, are you willing to receive help?

Let the William B. Webster Graduate Program help you.
What can I expect if I participate in the program?

The William B. Webster Graduate Program provides graduate housing and case management services to men and women. The program is located in a three-story structure providing four apartments that offer a comfortable, sober, home-like environment.

Residents are assisted with developing support systems and recovery skills which enable them to successfully transition into the community and experience long-term recovery and an improved quality of life.

Individuals in other treatment programs or in the community who have been sober and in recovery for at least three months may also apply to the William B. Webster Graduate Program. The length of stay is up to one year.

Who is eligible?

Eligible participants must be 18 years of age or older, living in Massachusetts, alcohol and drug free, active in recovery and self-help programs, employed full time or have the ability to meet financial obligations, and medically and psychologically stable.

How do I apply?

Self-referrals are accepted, as well as referrals from social service agencies, addiction centers, and other providers. To receive an initial screening, please call 508-674-2788 ext. 101 or 202. If criteria are met, an intake assessment is conducted on site. Upon acceptance, you will be placed on a waiting list and required to contact the program weekly to express your continued interest in the program.

The William B. Webster Graduate Program is funded by the United Way of Greater Fall River and private donations. Residents must have the ability to pay treatment fees.

What services are offered?

- Comprehensive case management
- Relapse prevention group sessions
- Individual substance abuse counseling
- Coping and parenting skills training
- Independent living skills training
- Employment placement assistance
- Health, wellness, and nutrition counseling
